FINANCIAL.

It is stated that the St. Louis Globe-Democrat claims that the bullion product of this country in the year 1882, amounting to about \$100,000,000, added nothing to the wealth of the country, because it has required labor of equal value to produce that amount. The Mining Review does not take this view of it, and comments upon the above as follows: While it might be difficult to prove the exactness of any statement with sufficient certainty to use it as an argument, there is as go d authority for bringing the same charge against any industry or enterprise, with the advantage every time in lavor of the result of mining operations, from the fact that even if it costs, as has been often unjustly asserted. \$2 for every \$1 extracted from the mines, the money expended is not destroyed, and the result produced is indestructable, imperishable and permanent wealth added to the channels of business.

"A bushel of wheat or a pound of cotton, which may have cost their value in labor to produce, can serve but one purpose and perform but one act. When the bread is consumed and the cotton destroyed an equal amount of labor must be expended to supply their place with another pound. A pound of gold or silver produced at any cost and coined into money will perform its work times without number, and continue for a hundred years to fill its place and mission, in every land and clime, and is forever, in every form and shape, a portion of the real wealth and power of people and nation,"

Bullion receipts in the various offices New York from the mines, for the weel ending June 15th, amounted to \$151,000, a against \$74,000 for the previous week. Th recepts from January 1st, 1883, to date ar \$5.500.712.

\$5,569,713.

The yield of the mines of the United States for the year 1882, according to the mint report, was \$12,500,000 in gold and \$46,800,000 in silver, a total of \$79,800,000. It is estimated that the value of the total mineral product of this country during that time was about \$90,500,000.

The annual report for 1881-82 of the government mints of Mexico has been issued. The state of Zacatacas leads in the amount of bullion produced, with the state of Hidalgo second, and Guanajuato third. The total amount of metal entered in the differental contents of the state of the state of the state of Hidalgo second, and Guanajuato third. The total amount of metal entered in the different state of metal entered in the different state of the s

PUTURES.

In New York to-day cotton futures vanced from 4 to 5 points, but the sales w lighter than usual, which would indic that there is not much interest felt in Staple. There was nothing to lead one surness that the rise was owing to an estaged domaind. In Liverpool there was olvence of about 2-74, which only carr with it the aimost certainty of a decline the early on, soi next week. The receipts today at all the ports were in excess of the corresponding day one year ago. The cot-ton maket has been insipid for three monshs and is likely to continue so for the balance of the season. If dealers in futures in America were sub-

If designs in futures in America were subject to the laws of Japan things might be different. In that country they have a short and easy way in dealing with speculators. It was recently resolved to arrest at the same moment all offenders on the stock exchanges at Osaka. Yokohama and K. be, as well as on the rice exchanges of Tokio. Otsu and other important commercial centers. The police inspectors received their orders only on the norming of the day fixed, and strong detachments of constables—all wearing various disguises—then proceeded to the vicinity of the exchanges and mingled with the crowd so as to avoid observation. A few minutes after eleven all was in resultiness. Six detectives stationed use it sounded their winsiles, and before the smazed speculators realized. the rear of Hill's residence, for \$250.

Peter J. Hendricks to Mrs. M. J. Downs; was twas the matter, the exchanges were in the occupation of the police, the doors locked and the prisoners recured. All the books, records and papers were then taken books, records and papers were then taken books, records and the whole "mail" was removed in boats to the central police station. It is stated that the offense with which these men are charried is speculating in "margins." Over 700 delinquents were put in prison. A month of this kind of thing in New York or Cheage—and—well, what would become of u. T. Chicago Produce and Provisions—Wheat allower, July deliveries fell off I cent, and closed at \$1.04.12. August was \$4.10.78.

were put in prison. A month of this kind of thing in New York or Chicago—and—well, what would become of the York of Chicago—and—Chicago Produce and Provisions—Wheat is lower. July deliveries fell of I cent, and closed at \$1 04 1-2. August was \$4 to 7-8 iower and brought \$1.06 38 to 1-2. July care was shade better and closed at \$4 104 1-2. August was \$14 to 5-8 iower and brought \$1.06 38 to 1-2. July care was shade better and closed at \$4 105 and advance of 3-8. August was not changed from last evening, and the southwest corner of the Lavina McComman, and 10 acres out of the W. P. Wyen sorter, 17 to 19 and 19 acres out of the west corner of the Lavina McComman, and 19 acres out of the W. J. There is always enough cotton received in this city to elicit a report, and while the name of bales is below a good average on rainy days during the winter months, it would not be proper to omit the daily receipts at this time, in the Herald. Ten be seen of standard silver dollars from the mints for the week ending June 9, was \$200,000. The issue for the corresponding period last year was \$211,429.

The product of the Lake Superior copper mines in May, 1883, was as follows: Calument and Hecia, 1,837 tons; Quincy, 261. Franklin, 170; Atlantic, 162; Allouez, 102. Pewabic, 70. Peninsula, 59: Wolverine, 377.

The standard silver dollar is eccentric. A Syracusan, crying "heads or tails," tossed one in the air the other day. When it struck the sidewalk it broke in three pieces. Experts pronounced it a genuine coin.

The May exports were valued at \$11,675. 290 in 1882 and \$10,110 925 in 1882. The exports of the eleven months were valued at \$191,414,943 in 1882-83, and \$107,730,632 in in 1881. The exports of the eleven months were valued at \$191,414,943 in 1882-83, and \$107,730,632 in in 1881. Meanra, Editors :-The above is a good likeness of Mrs. Lydia E. Pinke ham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is realously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to kelp her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or loy at release from it. Her Vegetable Compound is a medicine for good and not civil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says, "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterns, Leucorrhosa, irregular and painful Menstruation, all Ovarian Troubles, Infammation and Ulceration, Floodings, all Displacements and the convenient spinal weakness, and is especially adapted to he Change of Life."

It permeates every portion of the system, and given

It permeates every portion of the system, and give It permeates every portion of the system, and give see life and vigor. It removes faintness, flatulet, y, destroys all craving for stimulants, and relieves who ness of the stomach. It cures Bloating, Res ander, Nerrous Prestration, General Debuilty, Sleephonics, Depression and Indigestion. That feeling of bearing down outsting pain, weight and backache, is always permanently cured by its use. It will stull times and under all civenmentance, act in harmony with the law that governs the female system.

It costs only \$1. per bottle or six for \$5., and is sold by

It come only \$1 per bottle or six for \$1, and is sold by druggists. Any advice required as to special cases, and the names of many who have been redstored to perfekt bealth by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lyun, Mass.

For Kidney Complaint of either sex this compound is many passed as absorbed testimentals show.

Mrs. Pinkham's Liver Pills," mys one writer, "are the best in the movid for the cure of Constitution Billousness and Torpidity of the liver. Her Bood Purifier works wenders in its special line and held fair to equal the Compound in its popularity.

All must respect be in an Angal of Mercy whose sok and this to depose to them.

HEAR THE WITNESSES.

Saved from a Horrible Death.

Up to May last I had spent at least five hundred deliars for treatment by many of the best medical men, without any benefit. I suffered exeruciatingly, and all my best friends selviced me that the key hand of death was fast approaching. I catight at 8. 9. 8 like a drowning man at a straw. After taking two bottles I could feel a charge for the bester. The scree began to discharge freely, and the Rhemmaliam to abate. When I had taken aix bottles every sore had healed, and my skin began to assume a natural appearance. I persisted until I had taken twelve bottles, large size, and THEXE, IS NOT A SYMPTOM OF THE DISKARE REMAISING, and I foci as well as I ever did. I have familed twenty-one pounds in feesh, and my friends wonder at my improved condition. I have recommended it to many, and in every instance with complete success. I besieve that S. S. S. has saved me from a horrible death.

C. H. SMILEY, Quincy, Ill.

Lam sure that Switz Specific saved my life. Saved from a Horrible Death.

I am sure that Switz Specific saved my life.

I was terribly poi-oned with Malaria, and was given up to die. Switz Specific relieved me promptly and critically. I think it is the greatest remedy of the aga. C. G. SPENCER.

CURE YOURSELF

Dr. Rohannan a "Vegetable curative" is warranted to permanently cure all forms of Spermatorrhea or Seminal Weakness, General Deblity, Impotency, etc., and restores "Lost Power" and brings back the "Youthful Vigor" of those who bave destroyed it by sexual excesses or svil practices in from two to seven weeks time. This remedy, which has been used by Dr. Rohannan in his private practice for over thirty years was never knewn to tail in curing even the WOLD-CASES. It gives vitality and imparts concern who feel a veakness beyond their years. Its invigorating properties are left at once. Young men suffering from the consequences of that dreaffully destructive abit of Self-Abase can use this medicine with the assurance of a speedy and FERMANENT cure. The patient salar atrength and elasticity of spilits at once, as it acts directly on the parts affected as a soothing and healing sonic and anodyne to the relaxed seminal vesicles and irritated ducks, imparting power and tone and readoring them to their nay ural state the same as if the baneful habit had never been indulged in. The ingredients are simple productions of nature—barka, roots simple productions of nature—ba

herbs, etc. and are a specime for the cases.

Cases: Price, Five Dollars, sent with full directions to any address. For sale only at Dr. C. Articological and the case of the
